Fruit and Vegetable Branch Memorandum E-7

To: Field Offices -- Processed Products Standardization and
Inspection Division.

From: W. C. Hasbrouck, Senior Administrative Officer
Fruit and Vegetable Branch

Subject: Inspections Rendered Grain Products Branch

We have been informed by the Grain Products Branch that all orders for inspection services must originate in Washington. In view of this, please be sure that any requests for services from this Branch were issued from Washington at the time inspection is made.

It is entirely possible field representatives of the Grain Products Branch will request inspection services and if so, they will, no doubt, be in a position to furnish you with proper instructions received by them from Washington, either in the form of a copy of the request, or wire for inspection.
